*Geographies of Piety and Belonging:
Transregionalising Islamic reform in Central Asia
through a Muslim mobility lens*

Manja Stephan-Emmrich
(Humboldt-Universität zu Berlin)

17 aprile 2024, mercoledì, ore 14.00

Focusing on Muslim mobilities in and between Persophone, Arabophone and Russophone worlds, which intersect in Dubai's fur business, and tracing Tajik Muslims' involvement in the shaping of an exclusive, cosmopolitan 'Dubai Islam', the lecture critically examines the effects of methodological nationalism in political narratives such as those that associate migration to the Middle East with the danger of Arabization and thus the alienation of Islam in Tajikistan.
